

Granite/Stone CAD Layout Specialist

San Diego Granite, a premier stone countertop provider, is seeking a full-time CAD programmer to join our team. The primary function of the CAD programmer is to produce professional accurate technical drawings and machine programs for countertop fabrication.

Job Description:

- Interpret field templates to create final machine/digital drawings
- Download CAD (dwg, dxf) files into AlphaCAM to create digital drawings and machine programs
- Manage and maintain files and other computer programs that provide all necessary data to support each project
- Plan and schedule daily tasks devoted to the completion of design and drawings required to meet deadlines
- Turn digital drawings into physical reality by programming through AlphaCAM and Slabsmith
- Assist customers with stone layout

Requirements:

- Basic mathematical skills and calculation ability are required
- Must work well under pressure with changing deadlines and priorities
- Ability to multitask in fast paced work environment
- Must have the ability to work well with people on various levels
- Minimum Auto CAD experience 1-2 years
- Candidate should be a quick learner and highly motivated
- Stone experience is a plus, but not required

This position is entry/intermediate level position.

Position is for local candidates only.

To apply, please send your resume and references (at least one previous employer or supervisor required) to bill@sdginc.net. No phone calls.
